GUIDELINES AND TECHNIQUES

CONTENT METAMODEL Ch34 ... p. 331
Content metamodel describes the elements / parts and their relationships and attributes for:

ACF - ARTIFACTS Ch35 ... p. 373

ACF - VIEWS (recommended) Ch35.7 ... p. 400

ACF - DELIVERABLES Ch36 ... p. 435

ACF - Building blocks Ch37 ... p. 451

- Architecture build. blocks
- Solution building blocks

Enterprise Continuum and Tools Ch38 ... p. 459

adm phases MAKE USE OF adm techniques

migration phase FIRES UP entire adm cycle for lower level of the landscape

artifacts ARE (PARTS OF) PRODUCTS OF adm phases

delivrbs. CONSIST OF artfcs.

bbs ARE RE-USED from/in deliverables

artfcs/views/dvlbs ARE ORGANISED to achieve consistency in continuum

Reference Models

elements (svcs/fncs) ARE DERIVED FROM reference models (to achieve consistency in continuum)

The management process for all of those above.

The management process for all of those above.

Architecture Capability Framework - Management how-tos. Ch45 ... p. 545
